

Poster Presentations

by HU Students

14 September, 2023 (Thu) 14:10-15:10

	" Title " Presenters Name
1	"High temperature tolerance of <i>Chironomus sulfurosus</i> and its molecular mechanisms " Pamela Afi Tettey
2	" Prevalence and genetic variability of multidrug-resistant <i>Escherichia coli</i> isolated from meat sources in Japan." Xedzro Christian
3	" Psyllium upregulates antimicrobial Reg3 β peptide via Piezo1/STAT3 signaling pathway in the small intestine of mice " Dina Mustika Rini
4	" One Biofilm Approach for Food Safety " Jant Cres Caigoy
5	" Effect of intramammary lipopolysaccharide challenge after repeated intrauterine infusion of lipopolysaccharide on the inflammation status of goat mammary glands " Jirapat Jaisue
6	" Effects of temperature and moisture content on the caking of amorphous carbohydrate powders " Anantawittayanon Sukritta
7	" Roles of homocarnosine in hyperactivity-, anxiety-, and depression-like behaviors and effects of brain homocarnosine by prebiotic supplementation " Braga Jason Dumaguing
8	" Functional analysis of skeletal muscle-specific GDE5-deficient mouse – Crosstalk of choline metabolism and other metabolisms in skeletal muscle " Rahmawati Aisyah
9	" Protective effects of D- β -hydroxybutyrate on diabetic nephropathy and myopathy in mice " MIYATA Kenshu

Poster Presentations

by participating Summer School students

14 September, 2023 (Thu) 14:10-15:10

	" Title " Presenters Name (University Name)
1	" Optimization of ultrasound assisted extraction of tomato jellyfish collagen and its physicochemical properties " Thyviaah Ananthan (Malaysia Sabah University)
2	" Efficacy of the Leaves of a Mangrove Plant <i>Sonneratia ovata</i> Against Marine Parasitic Leech in Aquaculture " Fadlin Ammar Bin Pariamiskal (Malaysia Sabah University)
3	" Muricata Leaves: The Substitute of Broad Spectrum Antiparasitic Drugs " Lyvia Angeline Ciputra (Universitas Hasanuddin)
4	" Fermentation of red seaweed <i>Halymenia durvillei</i> By Associated Epiphytic <i>Bacillus</i> species and Determination of its bioactive. " Francis Reuben Paul A. Padayao (University of San Carlos)
5	" Induction of receptacles from tertiary leaves and vesicles of brown alga <i>Sargassum ilicifolium</i> C. Agardh in the Philippines " Erika Therese Dela Torre (University of San Carlos)
6	" Sustainable Protein Sources as a Way for Zero Hunger and Climate Action. " Nourel Din Reda Mohamed Morsy (Cairo University)
7	" Take urgent action to combat climate change and its impacts " Hedaya Medhat Moustafa Mohamed (Cairo University)
